- (1) Degree programs in the College of Business are developed to ensure that students who complete the programs possess the skills and competencies for successful careers or further academic study. To obtain the maximum benefit from the programs, some sequencing of courses is necessary. The models above reflect suggested sequencing. Observance of prerequisites will ensure that students have the background knowledge to obtain the maximum benefit from the curriculum. Please consult the Catalog for prerequisites to courses you plan to take. The following recommendations apply to all majors:
- The following courses should be taken in your first term: AC/MG 302, MG 320, MG 346
 - The following courses should be taken in your last term: MG 420, MG 480
 - If you are pursuing a minor as a part of your program, please note that courses that are required in only one minor may not be offered as frequently as core courses and should be scheduled accordingly. (See scheduling sequences for some minors on this website.)

- (2) Students who do not complete MG 320 at ASU are required to take GBA 300 Business Research Skills, a 1-semester hour course dealing with library research skills and business information sources.
