

## **HERITAGE COMMITTEE MINUTES**

October 13, 2005

CB 205

Athens State University

Members attending were Jerry Bradford, Christy Carroll, Alisha Crossley (student member), Molly Pepper (recorder), Tina Sloan (convener), and Dana Waldrop.

Tina Sloan called the meeting to order at 12:30 p.m.

The first order of business was to elect a chair and recorder. Jerry Bradford nominated Sara Love as Chair. The vote was unanimous in favor. Molly Pepper volunteered to continue serving as recorder.

Since there are several new members on the committee this year, the past members gave a brief overview of the charge of the committee and named some past projects that were handled by this committee.

Jerry Bradford gave some updates on campus improvement projects. One of these projects is to get all of the utilities on campus moved underground. Another is to make changes to the outside of Waters Hall so that it fits in better with the look of other buildings around it. He briefed the committee on plans for the Athens and Limestone County Historic Tour, of which Athens State is a large part. He also mentioned plans to refurbish the Bear that once stood outside of the Carter Physical Education Building. One other thing that Mr. Bradford wants to accomplish is to create a display of some of the artifacts and building materials that were discovered or saved from the Founders Hall renovations.

The meeting adjourned at 12:50 p.m.
