

HERITAGE COMMITTEE MINUTES

March 14, 2006
Brown Hall Conference Room
Athens State University

Members attending were Barry Devine, Molly Pepper (recorder), and Dana Waldrop.

In Sara Love's absence, Molly Pepper called the meeting to order at 12:30 p.m.

The minutes from the last meeting were approved.

Molly Pepper reported that Dr. Mabry Miller had accepted an invitation to speak at the March faculty/staff meeting.

Pamela Keller was not present to give a report on her findings regarding the "Light Eternal" painting.

Dana Waldrop reported that she had contacted the deans of the various colleges about taking departmental photos. She said that all of them were agreeable, but asked to be reminded of it closer to the appointed time for the photos to be taken. The committee discussed possible dates for the photographs. The date of the May faculty/staff meeting was recommended as the next appropriate opportunity. This would allow photographs to be taken of employees who might be planning to retire after this academic year. It was also decided to begin with the next Inservice to take annual photographs of all departments and new hires. Dana Waldrop also recommended taking photographs of the University Center managers. She agreed to take a camera with her on visits to the Centers and take some photographs.

Jerry Bradford was unavailable to give a report about campus projects.

In new business, Barry Devine raised a question about time capsules. He would like to see the University take part in a time capsule project. Molly Pepper mentioned that there was at least one time capsule buried on campus at the flagpole. It was suggested that the SGA might be responsible for setting a time capsule schedule and deciding what types of things should be included in the time capsule.

Molly Pepper informed the committee of some upcoming dates for a walking historic tour of Athens. The tours would run from Saturday, May 27 through Saturday, July 1, 2006. Six volunteers from each stop on the tour would be needed to provide the participants with information regarding that site and to take the group to the next stop on the tour. She encouraged the committee members to consider serving as a volunteer.

Molly Pepper reminded the committee of the Tommy Carter Reception to be held on May 4, 2006.

The date of the next meeting will be Tuesday, April 25, at 12:15 p.m. at a yet-to-be-determined location.

The meeting adjourned at 12:50 p.m.
