COLLEGE OF ARTS AND SCIENCE

1. Change in existing course– LaFevor (Substitutions)
 - a. Course Substitutions have caused issues in Banner alignment with Degree Works.
 - b. List course prerequisite substitutions for AC/MG 302, AC/MG 303, AC 312, AC 361, ESM 320, GBA 306, GBA 307, HCM 340, HCM 345, HCM 355, HCM 440, MG 370, MG 390, MG 410, MG 415, MC 416, MG 420, MG 471, MG 474, MK 333, MK 336, MK 431, MK 432, MK 433 in catalog.
 - c. This will eliminate prerequisite error message for students registering for listed courses.
 - d. Update catalog changes to include all approved prerequisite options.
 - All approve

2. Substantive Course Change – Mayfield (Computer Networking major /non; CS, & IT minors)
 - a. Request changes to minors that are impacted by requested changes to CS & IT courses for merger and numbering of ITE courses in Major. Change the CN prefix to ITE because of changes to Networking (non-majors).
 - b. Change the CN prefix to ITE and remove requirement ITE 301& 302 to Networking (majors) that are already needed for major.
 - c. Remove Microcomputer App and replace with Object Oriented Programming for CS minor; add statement regarding CS 317 placement exam.
 - d. Add 2 additional options to IT minor that can be taken (3 cr. hrs. required from pre-approved list of courses), previously only ITE 365, add requirement for Database Systems – new prerequisite for other courses within the major.
 - e. Update catalog
 - All approve

3. Addition of new Course/Curriculum & Substantive Program Change (Lewis) (ITE- Health Info Tech)
 - a. Add Health Information Technology as approved by Deans for preparation for ABET accreditation as a new option for the ITE program that will posture students for HIT and transition to master’s program.

- b. Add two new courses (ITE 371 & 471) specific for HIT program
- c. Update the catalog.
- All approve
