

Annual Petition for Recognition: Registered Student Club/Organization on Campus

Per Athens State University student club and organization guidelines, a minimum of five active student members are required not only to charter a club but also to maintain active status as a **Registered Student Organization** on campus each academic year. At this time of annual recognition, club/organization advisors are encouraged to submit all current academic year student members and update throughout the academic year with new members, as needed.

If the entire membership is not submitted at time of annual recognition, the preferred five member names to submit are the *current academic year* student leaders, if they have been determined.

New Academic Year Constitution

During annual petition of recognition to be a Registered Student Organization on campus, if there are changes to your student club/organization constitution for the current academic year, please submit constitution updates by way of a new constitution.

Submission Deadline

Please return this form and updated constitution, if needed, to Derrek Smith, senior director, at Derrek.Smith@athens.edu by no later than **Sept. 15th of the current academic year**. For a student club/organization to be eligible to participate in the fundraising opportunity at the annual Fiddlers Convention, a club/organization must be in compliance. As a friendly reminder, any student club/organization that cannot produce all parts: current academic year petition with at least five current academic year active members and a constitution (if there is not one on file), on or before Sept. 15th, will be considered inactive/defunct at the present time for the annual Fiddlers Convention. This will result in the defunct club/organization forgoing its opportunity to collect monies raised from a vendor sponsorship at the annual Fiddlers Convention.

A student club/organization that does not meet the Sept 15th deadline is still able to submit its petition for recognition to be a Registered Student Club/Organization at any point throughout the academic year when it meets standards needed.
